CAMPUS CRUSADE FOR CHRIST AT THE OHIO STATE UNIVERSITY

Our support has been raised! Brian and I reported, and we are ready to be back on campus! Thank you for believing with us that reaching college students is a tremendous opportunity to change the world. You have not only believed *with* us, but you have believed *in* us, and we pray that the fruit God allows us to see will bear testimony to you that it's not in vain. We're so privileged and grateful to lock arms with you as you partner with us.

Reaching the Buckeye Nation... No, that's not just OSU in Columbus. With the goal of giving every Buckeye an opportunity to know Christ, Brian and I have committed to expand our ministry to the OSU branch in Mansfield. There is currently a movement of about 20 students, with several leaders heading up Bible studies and weekly meetings. Their main need is training in evangelism and discipleship. That's where we come in. On top of leading our target area on south campus, we will be travelling to Mansfield several times a month to help. As the main campus continues to grow and become more selective, students are being pushed in their first years to the branch locations. Connecting the students there with our main campus movement is a win-win for us all, especially considering that many will transfer to the main campus later.

Prayer Requests:

- That we would fulfill the vision of seeing lost students become Christ-centered laborers. And that begins with college freshman. Please pray that God would ignite a desire in their hearts to know Him and continue to open doors for us to meet them. Pray especially for our surveys of the Freshmen class, September 22th and 24th.
- We're praying specifically that 3-4 freshman from each dorm would sign up for a Bible study at the Activities Fair. This would give us a tremendous head start at developing a core group of people in each dorm who might ultimately become the gatherers and laborers to see "seekers" become followers of Christ. Please pray that God would lead these men and women to us.
- We want to see every freshman have several opportunities to respond to the gospel and to be a part of a life-changing community right where they live. Please pray that God would allow our student leaders to create dynamic, communities in every dorm on campus, making us a spiritual presence so that every one would know someone who truly follows Jesus.

Thank you,
Jennifer + Brian
